

Please do not destroy our coral reefs. They are already under tremendous stress. I have been diving for 30 years, and I can tell a big difference in the quality of our reefs. It is not even exciting for me to dive our reefs anymore. At a time when we are losing our reefs from Bleaching, Diseases and Pollution and global warming we must put a stop to the Permitted Destruction of our reefs. Sewage outfall is disgusting and damaging. Dynamiting our reefs causes irreparable damage! An, please, no pipelines and machinery on our reefs.
